Follow the steps below to format and submit your Bears document in accordance with the Brand Style Guide and marking rubric. Make sure you familiarize yourself with both.

AI use is not permitted for this project.

---

1. **Open and Read the Brand Style Guide**

   Familiarize yourself with the specified fonts (e.g., Segoe UI), colors (Dark Teal, Dark Gray, Soft Coral), heading levels, list formatting, layout requirements, etc.

2. **Open the Bears Document in Microsoft Word** and apply the following updates in keeping with the Brand Style Guide.

3. **Apply Heading Styles**

   Modify the Title style and the appropriate heading styles (Heading 1, Heading 2, Heading 3) with the fonts, colours, and sizes as per the Brand Style Guide. **Do not** select and format text. You **must** modify the styles themselves. (**Note:** You may need to reapply the new Title style to the title for the border to display).

4. **Format Body Text**

   Ensure all body paragraphs are formatted with the Normal style as per the Brand Style Guide. **Do not** select and format text. You **must** modify the style itself.

5. **Create a Title Page**

   Insert a blank page at the beginning of the document. Center-align your insertion point. Insert the Title/Document Title field. Leave a blank line and add your **Name**, **Student Number**, and **Set** with a blank line between each and all center aligned. Make sure text is formatted in keeping with the Brand Style Guide (Title for the title, Normal for name, student number, and set).

6. **Insert a Table of Contents**

   Use the appropriate Word feature to insert a Table of Contents after the Title page (**Do not** insert multiple blank paragraphs to move your insertion point to the next page.) Ensure it is formatted according to the Brand Style Guide. Only the Table of Contents should appear on the page/pages.

7. **Insert Figures and Captions**

   There are 4 figures with titles in the document. Replace the current figure titles with captions inserted above using the Word Insert Caption feature. Use the current titles as the content for the captions. Ensure they are formatted according to the Brand Style Guide by modifying the caption style. You **must** modify the style itself.

8. **Insert a List of Figures**

   On the next page after your Table of Contents, insert a List of Figures using the appropriate Word feature. Ensure the text is formatted according to the Brand Style Guide. Add a title (List of Figures) one line space above the list. Format the title in Heading 1 style. Only the title and list of figures should appear on the page.

9. **Apply Bullet and Numbered Lists**

   Update the formatting for all bulleted and/or numbered lists to match the Brand Style Guide. **Do not** select and format text. You **must** modify the style itself. (**Hint:** With your insertion point in the list, use the dialog box launcher in the Styles group on the Home tab to access the specific bullet and/or numbering style you want to modify.)

10. **Update All Citations to APA Style 6 Using Word's Bibliography Style Feature**

11. **Update Citation Using Word's Manage Sources Feature**

    Update the first citation in the document (placeholder) by editing the source. The source is a book. Here is the bibliographical information: Olson, S. F. (1956). The Singing Wilderness. New York: Alfred A. Knopf.

12. **Insert Page Numbers**

    In the **footer**, insert page numbers and the Title/Document Title field aligned to the right. Ensure the footer is formatted according to the Brand Style Guide. (**Note:** Title page should be page 1, but page number should not be visible).

13. **Insert a Bibliography and Modify Page Numbering**

    Insert a break after the main body of the document that moves your insertion point to the top of the next page and creates a new section. Use Word's Bibliography tool to insert a References or Bibliography page in the new section.

    In the footer of the new section, break the link to the previous section and ensure the page number is visible. Change the page number format for the new section to A, B, C…, starting at A. Make sure that the page numbering in the previous section remains unchanged.

14. **Save Your File**

    Format your filename as:
    YourFullName_BearsDocument.docx
    (e.g., JordanLee_BearsDocument.docx)

15. **Review the Rubric**

    Take one last pass to make sure everything aligns with the Brand Style Guide and review the marking rubric.

16. **Submit Your Final Document**

    Upload your finished file to the learning hub before the posted deadline to avoid late penalties (10%/day).
